

JOB TITLE

Information Security Officer (m/f/d)

TRATON is a wholly-owned subsidiary of Volkswagen AG and a leading commercial vehicle manufacturer worldwide with its MAN, Scania, Volkswagen Caminhões e Ônibus, and RIO brands. In 2018, TRATON GROUP's brands sold around 233,000 vehicles in total. Its offering comprises light-duty commercial vehicles, trucks, and buses at 29 production and assembly sites in 17

countries. The Company had a workforce of around 81,000 employees worldwide across its commercial vehicle brands as of December 31, 2018. The Group seeks to transform the transportation system through its products, its services, and as a partner for its customers.

Your tasks

To ensure a holistic group view on Information Security and to integrate existing Information Security work within the brands, TRATON Group is building up a Group Information Security function. The core tasks of the function include steering documents, training, information risk management, monitoring and reporting as well as Group common Information Security projects.

We are now looking to strengthen the team with an Information Security Officer that will focus on TRATON SE to support our corporate functions with expert knowledge of Information Security.

Since this is a new function you will have the opportunity to influence and shape the function as well as your role.

- Support business in identifying, assessing and managing information security risks
- Facilitate Information security assessments of external suppliers and partners

- Define corporate rules and instructions needed as supplement to TRATON Group policy and standards
- Perform awareness activities to raise the level of knowledge regarding Information Security

Your profile

- Minimum 3 years' experience working with Information Security within a global company
- Minimum 3 years' experience of IT with a broad understanding of infrastructure as well as application development
- Experience of common information security related frameworks, such as for example ISO 27001, ITIL, COBIT and NIST

- Fluent in German and English
- Good communication skills with the ability to communicate security and risk-related concepts to both business and technical stakeholders
- Flexible mindset to handle change as we build a lean and efficient Information security function

More information
